

ProSpray

The ProSpray cleaning and sanitation system automatically dilutes and dispenses concentrated cleaning products as a foam or spray. The spray system is easily and quickly converted into a foam system with the quick coupling foam wand.

- Strong, long lasting and easy to clean rugged stainless steel enclosure
- Smooth and ergonomic surface, with no sharp edges
- Connection direct to the water source, no electric power or compressed air needed
- Space saving
- Quick and easy installation: no special tools required

The chemical feed rate is set by metering tips pressed into the barb on the side of the ProSpray.

- Brass fittings for hot water resistance, polypropylene injectors for chemical resistance, rugged stainless steel casing for secure mounting and durability.
- Will dispense 1 or 2 chemical products or a clear water rinse.
- These features make the ProSpray suitable for cleaning throughout the food processing, dairy, transportation, industrial and agricultural industries.
- It can be used: in supermarket meat rooms, seafood shops, butcher shops, automotive care areas, shower rooms; in short: anywhere spray/foam cleaning or sanitation is needed.
- Available accessories: Wire rack for chemical containers and Ultra lean Tip

For all proportioning applications, SEKO provides the following

- Possibility to dose 2 products individually or simultaneously (2 product model)
- Single or multiple chemical use
- 3.5 GPM Flow rate
- 15 different mixing ratios can be easily chosen, making the dosing accurate and effective
- Ball valve operation, no need to hold or lock a button
- Fill tube designed to minimize excess foam

Features

- No Lock-Tite threaded connections
- Easy and Fast maintenance with SEKO's innovative "quick connect" manifold
- Non Return valve and metering tips are easily accessible
